

Aegon European Government Bond Fund

Supplement

Dated 15 January 2024

This Supplement contains specific information in relation to the Aegon European Government Bond Fund (the **Fund**), a sub-fund of Aegon Asset Management Europe ICAV (the **ICAV**) an umbrella type open-ended Irish collective asset-management vehicle with variable capital and segregated liability between sub-funds governed by the laws of Ireland and authorised by the Central Bank of Ireland (the **Central Bank**).

This Supplement forms part of and should be read in conjunction with the Prospectus dated 30 November 2022 (the Prospectus).

The Directors of the ICAV, whose names appear in the **Directors of the ICAV** section of the Prospectus, accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) such information is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

An investment in the Fund should not constitute a substantial proportion of the investment portfolio and may not be appropriate for all investors.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

APPENDIX I	Error! Bookmark not defined.

1. INVESTMENT OBJECTIVE

The investment objective of the Fund is to provide long term capital growth.

2. MANAGER

The ICAV has appointed Aegon Investment Management B.V., as the management company and global distributor of the ICAV. The Manager will also provide certain investment management related services to the ICAV.

Please refer to the **MANAGEMENT OF THE ICAV** section of the Prospectus for further details.

3. INVESTMENT POLICIES

The Fund is actively managed and will seek to achieve its investment objective by investing at least 67% of its net assets directly or indirectly, in government bonds and government related bonds such as municipalities, supra-national organisations (fixed and/or floating rate) of countries belonging to the European Union and in countries in the process of negotiating accession to the European Union with the European Commission (such as Bosnia and Herzegovina, Serbia and Turkey). The Manager aims to add value by active selection of the weighted average life of bonds (average length of time until repayment of the principle invested) and specific bonds in the portfolio as well as active selection of issuers, issues, countries, sectors, ratings and maturity buckets (the date on which the relevant instrument will mature). All active selections are based on the outcome of top-down and bottom-up research in which government bond markets are assessed along the lines of four dimensions: fundamentals (assessment of economic cycle and monetary policy), valuation (valuation of government bond markets), technical (assessment of technical indicators of the government bond market like interest rates, curves) and sentiment (investor positioning, risk aversion and political developments). Investments will not be made by the Manager if the Manager's aim will not be met following the top-down and bottom-up research and assessment based on the four dimensions.

All government bonds and government related bonds held will be denominated either in Euro or in the currency of another European country which is not a member of the Euro. Non-Euro denominated assets are the result of investments in European countries not having the Euro as a base currency like the United Kingdom, Sweden, Denmark, etc. as described earlier. Where non-Euro denominated assets are held, the Manager will seek to hedge the associated currency risk back to Euros. The currency risk is hedged to the euro, using a hedge ratio between 95% and 105% of the total fund assets.

The Fund may invest in government bonds and government related bonds from developed countries, inflation-linked bonds, private placements (instruments that are structured as debt securities which may contain restrictions on the debt securities sale to a third party) and liquid assets such as cash and/or cash-like securities (such as, for example, UK gilt-edged securities or money market instruments). The Fund may hold the following financial derivative instruments (**FDI**), single name credit default swaps (**CDS**), interest rate options, interest rate swaps, fixed income futures, inflation swaps, asset swaps, currency swaps, forward currency contracts and repurchase agreements. In accordance with the requirements of the UCITS Regulations, the Fund may also hold cash positions. Where the Fund engages in swap transactions, the counterparty to such transactions shall have a minimum credit rating of BBB (or equivalent) from Standard & Poor's, Moody's, Fitch or a comparable internationally recognised rating agency.

The Fund will invest in government bonds and government related bonds of countries that are part of the European Union and countries in the process of negotiating accession to the European Union with the European Commission. The Fund will be broadly diversified by issuer. The allocation ranges (the amount of net asset value of the fund that will be allocated to such government bonds) are subject to change as the market for bonds evolves.

The Fund may hold up to 10% of its net assets in countries in the process of negotiating accession to the European Union with the European Commission. The Fund may hold up to 20% of its net assets in bonds

of issued by agencies, quasi-government institutions or supranationals of European Union member states.

All government bonds and government related bonds must, at the time of purchase, be issued by an issuer having a credit rating at the time of acquisition of at least BBB (or equivalent) or higher from Standard & Poor's, Moody's, Fitch or a comparable internationally recognised rating agency. All non-government bonds must, at the time of purchase, be issued by an issuer having a credit rating at the time of acquisition of at least AA (or equivalent) or higher from Standard & Poor's, Moody's, Fitch or a comparable internationally recognised rating agency, or a rating that is not lower than that of the relevant country.

If a rating limit is breached due to downgrading the status of a bond, those bonds will, in the interest of the Shareholders, be sold as soon as possible, and within a period of no more 3 months unless the Manager believes it to be in the Shareholders' best interests to retain the holding. During any period where a bond is downgraded, the Manager will not engage in purchasing of such downgraded bonds.

The Fund may invest in FDI as outlined below for investment purposes and for the purposes of efficient portfolio management (**EPM**).

With the exception of permitted investment in unlisted securities, investments will be made on the Markets listed in Schedule I to the Prospectus.

A maximum of 10% of the Fund's net assets may be invested in units or shares in other collective investment schemes.

SFDR

Details of how ESG risks (as described in the Prospectus) are integrated in investment decisions and the likely impacts of ESG risks on the Fund, as required by Article 6 of SFDR, can be found in the Prospectus.

The Fund promotes ESG characteristics in all its investments in government bonds and government related bonds, as described in Article 8 of SFDR, in the following ways:

- screening issuers to identify those which breach certain principles the Manager considers relevant to sustainability. The Manager refers to international standards and norms in this regard, including international treaties (such as the Biological Weapons Convention), member organisations (such as the Dutch Association of Investors for Sustainable Development) and responsible business and investing guidelines (such as the United Nations Principles for Responsible Investment). The resulting principles can include those relating to human rights and controversial arms trade; and
- placing issuers identified as described above on an exclusion list, which would prevent the Manager from purchasing their securities.

For further details, please refer to Appendix I to this Supplement and to the Aegon AM NL Sustainability Risks and Impacts Policy applicable to this Fund, which can be found the Aegon AM website, documents section. Please also see the sections titled Responsible Investing and Sustainability Risks in the Prospectus for more information.

FDI

The Fund may invest in FDIs for the purposes of EPM, subject to the conditions described in the Prospectus. The Fund may also use FDIs for investment purposes.

In particular, the Fund may use interest rate futures, forwards, swaps (including interest rate swaps, currency swaps, CDS and asset swaps) and options, each of which is described in the Prospectus. The underlying assets of these FDIs will be one of the asset classes referred to above in this Investment Policies section

Any leverage created by the use of FDIs, which may not exceed 100% of the Fund's Net Asset Value, will be measured using the commitment approach. The Fund will aim to deliver long term capital growth and is allowed to do so by holding FDIs and taking short positions synthetically via FDIs, based on anticipated changes in markets and for managing interest rate risk. For example, short positions may be achieved by selling futures, buying CDS protection (single name) as well as buying or selling forwards. These long and short positions may be over any type of asset described above.

There is no limit on the amount of the assets which may be used for EPM or for investment purposes, subject to the Fund's total exposure limit including leverage (as prescribed by the Central Bank) not exceeding 200% of the Fund's total Net Asset Value.

Generally, the underlying assets of the futures contracts will be government bonds and interest rates. Futures will only be used for the purposes of EPM.

Interest rate swaps may be used to take long or short exposure to interest rates or to manage interest rate risk and duration exposure.

Inflation swaps can allow the inflation sensitivity profile of the Fund to be changed more efficiently than through the use of physical cash markets. They may also be used to express views on the future level of inflation.

The Fund may use currency swaps to cover the risk of the value of a particular currency rising or falling over time.

The Fund may also use CDS to take synthetic long or short positions.

Generally, the put/call options which the Fund may purchase will be in relation to interest rates and currency and the underlying assets will be the assets referred to in the Investment Policy. The sale of options will be used for hedging at portfolio level or for the purposes of EPM to manage the underlying securities with the aim of reducing risk, reducing cost or potentially obtaining increased revenue for the portfolio.

The Fund may use FDIs for investment purposes.

- (i) as a substitute for taking a position in an underlying asset;
- (ii) to tailor the Fund's interest rate exposure to the Manager's outlook for interest rates; and/or
- (iii) to control the risk of loss due to issuer default or market movements and to reduce the risk of credit risk with individual holdings by making use of single name credit default swaps.

FDIs may also be used in order to take tactical decisions for short term investments. Single name credit default swaps may be used to gain or reduce the Fund's exposure to credit spreads or a particular security or market for periods of time to be determined by the Manager, either in advance of a longer term allocation or reappraisal of the Fund's commitment to the asset or market in question, or purely on a temporary basis where it is more efficient to use FDIs for this purpose.

The Manager may use single name credit default swaps to manage the Fund's exposure to the market. These instruments may be used to increase, reduce or maintain exposure to the market as a whole or its subcomponents to enhance the Fund's performance or protect downside risk. For example typical positions taken will be based on the Manager's view on sensitivity of prices or sensitivity of spreads to expected changes in both economic and market conditions.

Other Information

The Fund will be able to take long and/or synthetic short positions across the assets described in the investment policy. It is anticipated that the Fund may hold up to 200% of its assets in long positions and up to 100% of its assets in synthetic short positions.

The global exposure of the Fund (which will be measured using the commitment approach) will not exceed 100% of Net Asset Value of the Fund.

The collateral management policy is set out in the Prospectus.

Use of benchmarks

The Fund is actively managed and is not constrained by any benchmark. Benchmarks may be used from time to time as performance comparators and any such use will be disclosed in the Key Investor Information Document or Key Information Document (as applicable) for the Fund.

4. EFFICIENT PORTFOLIO MANAGEMENT – REPO TRANSACTIONS

The ICAV, on behalf of the Fund, may enter into repurchase and reverse repurchase agreements (**repo transactions**) for the purposes of efficient portfolio management in accordance with the conditions set out in the Prospectus and the investment restrictions, conditions and limits laid down by the Central Bank.

5. SECURITIES FINANCING TRANSACTIONS

The ICAV, on behalf of the Fund, may enter into repo transactions or stocklending transactions (Securities Financing Transactions) in order to meet its investment objective for the benefit of the Fund, as described in the Prospectus. The assets that can be subject to Securities Financing Transactions are the assets described in the investment policy. It is anticipated that the expected proportion of assets under management (AUM) subject to Securities Financing Transactions will be less than 30% AUM and the maximum expected proportion of AUM subject to Securities Financing Transactions shall not exceed 100% AUM. Further details in respect of Security Financing Transactions are set out in the Prospectus under the heading “**Utilisation of FDI - Securities Financing Transactions: Stocklending, Repurchase Agreements and Reverse Repurchase Agreements**”. The re-use of collateral is not permitted by the Fund.

6. INVESTMENT RESTRICTIONS

The general investment restrictions set out in the section entitled **FUNDS - Investment Restrictions** in the Prospectus shall apply to the Fund.

7. SHARE CLASS CURRENCY HEDGING

The classes of are available for subscription in the Fund are listed under the heading ‘Key Information for Buying and Selling’ in the Supplement.

The Manager intends to hedge the currency exposure of the hedged Share classes in the Fund, in order to attempt to mitigate the effect of fluctuations in the exchange rate between the Share class currency and the Base Currency.

This section should be read in conjunction with the section entitled **Hedged and Unhedged Share Classes** in the Prospectus.

8. BORROWINGS

In accordance with the general provisions set out in the Prospectus in the section entitled **FUNDS - Borrowing and Lending Powers** the Fund may borrow up to 10% of its net assets on a temporary basis.

9. RISK FACTORS

Investment in the Fund carries with it a degree of risk. The general risk factors set out in the section entitled **RISK FACTORS** section of the Prospectus apply to the Fund. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisers before making a subscription request for Shares.

The investments of the Fund will be subject to market fluctuations, currency fluctuations, custody and settlement risks, registration risk and foreign exposure risk.

10. **DIVIDEND POLICY**

This section should be read in conjunction with the section entitled **Dividend Policy** in the Prospectus.

Income Shares

It is the current intention of the Directors to declare dividends for the Income Share classes on a quarterly basis on the last Business Days of, January, April, July and October. Dividends shall be declared out of the accumulated revenue (consisting of all revenue accrued including interest and dividends) less any applicable expenses. The Directors currently intend to pay dividends equal to substantially all of the income arising to the Income Share classes. Any such dividend in relation to the Income Share classes will be paid out of income arising indirectly from its holdings in investments and from any other income that may accrue to the Fund. Dividends will be paid by telegraphic transfer within two months of the relevant declaration date.

The Fund will operate grouping for equalisation with respect to Income Shares. Each Class of the Fund will operate its own equalisation account. Shares purchased during a distribution period are called Group 2 Shares. Shares purchased during any previous distribution period are called Group 1 Shares. Group 2 Shares contain in their purchase price an amount called equalisation which represents a proportion of the net income of the Fund that has accrued up to the date of purchase. The amount of equalisation is averaged across all the Shareholders of Group 2 Shares and is refunded to them as part of their first distribution. It may be treated as a return of capital for tax purposes.

Each holder of Income Shares has the option to take dividends in cash or to reinvest in the relevant Fund by the allotment of additional Shares at Net Asset Value per Share provided that no Preliminary Charge will be payable on any Shares so allotted of the Fund. The Fund's default position unless specifically advised on the application form will be to reinvest dividends into the Shares of the Fund. Those Shareholders wishing to have their distribution of income automatically paid in cash should elect for such method when completing the Application Form. Payment will be made by telegraphic transfer to an account in the name of the Shareholder within 2 months of the declaration date. Distributions not claimed within six years from their due date will lapse and will revert to assets of the Fund.

Accumulation Shares

Accumulation Shares of any class may at the discretion of the Directors be issued on the basis that no dividends will be declared in respect of those Shares and that any income available for distribution will form part of the assets of the Fund and will be applied when calculating the subscription price and the repurchase price as part of the proportion of the Fund which is attributable to the holders of that class of Shares.

11. **PROFILE OF A TYPICAL INVESTOR**

The Fund is designed for retail and institutional investors seeking pooled exposure to the European bond market and who are comfortable with a medium level of investment risk. It is expected that the Fund will be held by investors as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash. Share prices will fluctuate and may fall significantly in value. It is important to understand that the Fund should be viewed as a medium to long term investment. The Fund may not be appropriate for investors who plan to invest in the short term.

12. **KEY INFORMATION FOR BUYING AND SELLING**

Base Currency

The Base Currency of the Fund is Euro.

Share Class Information

Shares of the Fund are currently available for subscription in the following denominations:

Share Class	Currency	Dividend Policy	Hedging
Class A, Class B, Class I, Class K, Class P, Class T, Class Z	Euro, US Dollar, Sterling*	Accumulation, Income	Hedged, Unhedged

*Class Z Shares are not available in Sterling.

Minimum Investment Levels

Share Class	Minimum Investment Limit	Minimum Additional Investment Amount	Minimum Residual Holding
Class I	EUR 1,000,000 (or equivalent in US Dollars, where applicable)	N/A	EUR 1,000,000 (or equivalent in US Dollars, where applicable)
Class K	EUR 20,000,000 (or equivalent in US Dollars, where applicable)	N/A	EUR 20,000,000 (or equivalent in US Dollars, where applicable)
Class T	EUR 5,000,000 (or equivalent in US Dollars, where applicable)	N/A	EUR 50,000,000 (or equivalent in US Dollars, where applicable)

The Directors (or the Manager or its delegates on their behalf) may waive such minimum investment levels in their absolute discretion.

Class A Shares

Class A Shares are available for all type of investors. The Share class is available in certain countries, subject to the relevant regulatory approval, through specific Distributors, selected by the Manager.

Class B Shares

Class B Shares are available for all type of investors. The Share class is available through specific Distributors in the framework of the services they provide, where the acceptance of retrocession fees is not allowed according to regulatory requirements or based on contractual arrangements with their clients. Class B Shares are Share classes on which the ICAV will not pay distribution fees.

Class I Shares

Class I Shares are available for institutional investors. For this Share class a minimal initial investment amount applies to ensure that the investors are institutional. The possession, redemption and transfer of

institutional classes of Shares is limited to institutional investors, as described in the Prospectus. As at the date of this Supplement, the following investors are classified as institutional investors: pension funds, insurance companies, credit institutions, collective investment undertakings and other professional institutions of the financial sector. Credit institutions and other professionals of the financial sector investing in their own name but on behalf of another party on the basis of a discretionary management relationship are also considered as institutional investors, even if the third party on behalf of which the investment is undertaken is not itself an institutional investor. If it appears that institutional classes of Shares are being held by retail investors, the ICAV will redeem these Shares.

Class K

Class K Shares are only available for institutional investors who have entered into a suitable agreement with the Manager. The ultimate decision whether an institutional investor qualifies for Class K Shares is at the discretion of the Directors of the ICAV. For these Share classes a minimal initial investment amount applies to ensure that the investors are institutional.

Class P

Class P shares are only available for institutional investors who have entered into a suitable agreement with the Manager. The ultimate decision whether an institutional investor qualifies for Class P Shares is at the discretion of the Directors of the ICAV. For these Share classes no minimum initial investment amount applies.

Class T Shares

Class T Shares are available for institutional investors. For this Share class, investors shall be permitted to have holdings below the minimum residual holding amount for a period of 12 months from the date of initial investment. If the Net Asset Value of an investor's Shares remains below such minimum residual holding amount after 12 months, then the Directors (or the Manager) may at their discretion exchange such investor's Shares for Shares of another class in the Fund of the same currency, dividend policy and hedging as the relevant Class T Shares and with the lowest expense ratio of which the relevant investor is eligible based on their residual holdings at the time.

Class Z Shares

Class Z Shares are only available for collective investment schemes, investment structures which are (co-)managed and/or (sub)advised by members of the Aegon group or Institutional investors that are part of the Aegon group. The ultimate decision whether an institutional investor qualifies for the Class Z Shares is at the discretion of the Directors of the ICAV.

Initial Offer Period

The Initial Offer Period for each unlaunched Share class will commence at 09:00 (Irish time) on 16 January 2024 and they will continue to be available for subscription at the Initial Issue Price, as set out below, until 17:00 (Irish time) on 15 July 2024. The Initial Offer Period of each Share class may be extended or shortened as the Directors may determine and any change will be notified to the Central Bank in accordance with its requirements. After the Initial Offer Period of each Share class, Shares in each class will be available for subscription at the Net Asset Value per Share.

Initial Issue Price

The Initial Issue Price per Share is:

Euro Classes	EUR 10
USD Classes	USD 10
Sterling Classes	STG £10

Minimum Fund Size

The minimum size of the Fund will be EUR50 million or such other amount as may be determined by the Directors at their discretion and notified to Shareholders. When the size of the Fund is below such amount, the Directors of the ICAV may, following consultation with the Manager, compulsorily redeem all of the Shares of the Fund in accordance with the section entitled **Mandatory Repurchases** in the Prospectus.

Business Day

Any day (except Saturday or Sunday) on which the banks or the stock exchange in both Ireland and the Netherlands are generally open for business, or such other day as the Directors may, in consultation with the Manager and with the consent of the Depositary, determine and notify to Shareholders in advance.

Dealing Day

The Fund shall be open to dealing on every Business Day.

Dealing Deadline

In respect of a Dealing Day, the Dealing Deadline for Subscriptions and Redemptions is defined as 13:00 (Irish time) on the relevant Dealing Day, or such other day or time as the Directors may determine in exceptional circumstances provided it is prior to the relevant Valuation Point.

Settlement Date

Subscription monies must be received by and generally payment for Shares redeemed will be effected by the Second (2) Business Day falling after the Dealing Day on which the redemption request is received. However, the ICAV may, at its absolute discretion, refuse to satisfy a redemption request or make any other payment to a Shareholder or at the direction of a Shareholder if such payment would result in a breach of the guidelines in operation from time to time in relation to the detection and prevention of money laundering. Redemption proceeds will be paid in the currency of the relevant Share class.

Preliminary Charge

The ICAV may levy a preliminary charge of up to 5% of the Net Asset Value per Share in connection with the subscription of Class A Shares of the Fund. The preliminary charge levied on the Class A Shares will be retained for the benefit of the Global Distributor. The Global Distributor may, at its sole discretion and in accordance with applicable laws and regulations, (i) share any or all of the fee with the Sub-Distributors, (ii) pay commission to financial intermediaries including but not limited to sub-distributors, intermediaries, advisers and introducing agents who refer and/or advise prospective investors out of the initial charge and/or (iii) waive the initial charge for certain prospective investors based on factors deemed appropriate by the Global Distributor. There is no preliminary charge payable on any Class other than the Class A Shares.

Exchange Charge

The Directors reserve the right at their sole discretion, to impose an exchange fee of up to 1.5% of the total repurchase price of the Shares in respect of an exchange of Shares held in one class for Shares in another class but such fee is charged only if exchanges are in excess of 5 in a calendar year.

Repurchase Charge

A repurchase charge of up to 3% of the repurchase price may be charged at the discretion of the Manager. The Manager may waive the repurchase charge in whole or in part.

Anti-Dilution Adjustment

To preserve the value of the underlying assets and to cover dealing costs, when there are net subscriptions or redemptions, an Anti-Dilution Adjustment may be applied by the Manager at its discretion to the Issue Price or the Redemption Price as appropriate. Any such adjustment shall be retained for the benefit of the Fund.

Valuation Point

The valuation point for the Fund shall be 23:00 (Irish time) on each Dealing Day. For the avoidance of doubt, the Valuation Point for a particular Dealing Day shall not be before the Dealing Deadline relevant to such Dealing Day.

13. FEES AND EXPENSES

This section should be read in conjunction with the section entitled **Fees and Expenses** in the Prospectus.

Management Fee

The fee payable to the Manager will be no more than 1.5% per annum of the Net Asset Value of the Fund (plus VAT, if any).

Such fee shall be accrued daily and payable monthly in arrears. The Manager shall also be entitled to be reimbursed out of the assets of the Fund for reasonable out-of-pocket expenses incurred by the Manager in the performance of its duties.

The Manager (or its delegate) may agree at its discretion to rebate a portion of the management fee with respect to certain Shareholders' investment in the Fund. Any such rebate or reduction will not entitle other Shareholders to a similar rebate.

Distribution Fee

In addition to the preliminary charge that may be paid to the Global Distributor as referred to above, the fee payable to the Global Distributor for its services in the distribution of Shares of the Fund shall not exceed 1% per annum of the Net Asset Value attributable to the Class A Shares. The Global Distributor shall be responsible for the discharge of any fees due to the Sub-Distributors and may, at its sole discretion and in accordance with applicable laws and regulations, pay commission to financial intermediaries including but not limited to sub-distributors, intermediaries and advisers who refer and/or advise prospective investors out of the Global Distributor's fee as set out above. Where taken, this fee shall be accrued daily and payable monthly in arrears.

Service Fee

The Fund will also incur an annual service fee of the Net Asset Value of the Fund which reflects all remaining expenses as follows:

Unless otherwise specified in the Prospectus, such fees shall be accrued daily and shall be payable monthly in arrears.

(a) Administration Fee

The fee payable to the Administrator shall not exceed 0.2% per annum (plus VAT, if any) of the net asset value of the Fund. In addition, the fee payable to the Administrator for its role as registrar and transfer agent to the Fund will not exceed 0.1% per annum (plus VAT, if any) of the net asset value of the Fund.

The Administrator shall also be entitled to be reimbursed their reasonable out-of-pocket expenses, payable out of the assets of the Fund (plus VAT, if any).

(b) Depositary Fee

The fee payable to the Depositary, will not exceed 0.1% per annum (plus VAT, if any) of the net asset value of the Fund.

The Depositary will also be entitled to any out-of-pocket expenses incurred (including any transaction charges or Delegate or Sub-Delegate fees at normal commercial rates).

(c) Other fees and expenses

The Fund will also incur other fees and expenses (please see the section **Fees and Expenses** in the Prospectus for further details).

This section should be read in conjunction with the section entitled **Fees and Expenses** in the Prospectus.

14. ESTABLISHMENT CHARGES AND EXPENSES

The cost and expenses of establishing the Fund, which did not exceed €25,000, are being borne by the Fund and amortised over the first five financial years of the Fund's operation.

APPENDIX I

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Aegon European Government Bond Fund
Legal entity identifier: 635400TFQDHM5AIVXU55

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

X

No

It will make a minimum of **sustainable investments with an environmental objective:**

___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** ___%

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Fund actively avoids investing in securities issued by governments that are under arms embargoes and/or systematically violate human rights.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The strategy excludes a number of securities issued by governments identified according to a set of ESG exclusion criteria (as detailed in the description of the Fund's investment strategy below). Therefore, the key sustainability indicators to measure the attainment of the ESG characteristics this strategy promotes is the share of investments in government issued debt from countries identified to be engaging in the excluded activities.

● **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

N/A

● **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

N/A

How have the indicators for adverse impacts on sustainability factors been taken into account?

N/A

How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, the Fund considers principal adverse impacts (PAIs) on sustainability factors. The Manager interprets consideration to mean awareness of the PAI indicators, where data is available. Certain security types or asset classes may have limited or no PAI data

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

available. PAIs are taken into account within the context of the Fund's investment objective.

The Manager considers PAIs, where data is available, alongside other factors in its investment decisions. PAI factors will be included in the applicable reports alongside the sustainability risk assessment (ESG integration) for consideration in our investment process. However, PAIs may be no more significant than other factors in the investment selection process, such that PAIs may not be determinative in deciding to include or exclude any particular investment in the portfolio.

In addition to considering the PAI indicators, certain issuers are excluded on the basis of their activities and associated adverse impacts. These exclusion criteria are outlined in the description of the Fund's investment strategy below.

More information on how PAIs were considered during a specific reporting period can be found in the SFDR periodic disclosure.

What investment strategy does this financial product follow?

The Fund will invest predominantly in European government securities. The Manager aims to add value by active selection of the weighted average life of bonds and specific bonds in the portfolio as well as active selection of issuers, issues, countries, sectors, ratings and maturity buckets. All active selections are based on the outcome of top-down and bottom-up research in which government bond markets are assessed along the lines of four dimensions: fundamentals, valuation, technical and sentiment.

In addition, the Fund screens issuers to identify those which breach certain principles the Manager considers relevant to sustainability. The Manager refers to international standards and norms in this regard, including international treaties (such as the Biological Weapons Convention), member organisations (such as the Dutch Association of Investors for Sustainable Development) and responsible business and investing guidelines (such as the United Nations Principles for Responsible Investment). The resulting principles can include those relating to human rights and controversial arms trade.

Issuers identified as described above are placed on an exclusion list, which would prevent the Manager from purchasing their securities. The current exclusionary criteria applicable to the Fund address:

Human rights

- Investments in any form of government-issued debt (e.g. government bonds) from countries whose governments systematically breach human rights.
- Countries that are lacking basic political freedom. Countries with high corruption.
- Countries with poor environmental performance based on the Sustainable Development Goals (SDG) Index.

Controversial arms trade

- Securities issued by governments of countries (i) where a United Nations Security Council, United States, European Union or another relevant multilateral arms embargo is in place.

The Manager conducts annual screening of the broadest investment universe and utilizes third-party ESG data to determine which issuers breach the exclusion criteria on an annual basis. These issuers are added to the exclusion list. The exclusion list is integrated in portfolio risk control processes, with daily ex-post monitoring to ensure the Fund adheres to the list.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

A copy of the full exclusion list is available to investors upon request. For further details please refer to the Aegon AM NL Sustainability Risks and Impacts Policy applicable to this Fund, which can be found in the documents section of the Aegon AM website (www.aegonam.com).

The Manager continuously monitors the portfolio to ensure that it operates in accordance with the relevant investment objective.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

As detailed above, specific ESG criteria are used to define an exclusion list applicable to the Fund. The Manager is not allowed to invest in securities issued by issuers on the exclusion list. These exclusions are the binding elements used to attain the Fund's promoted ESG characteristics.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

N/A

● ***What is the policy to assess good governance practices of the investee companies?***

This Fund does not invest in company-issued securities. Therefore, the investments cannot be screened against good governance criteria.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

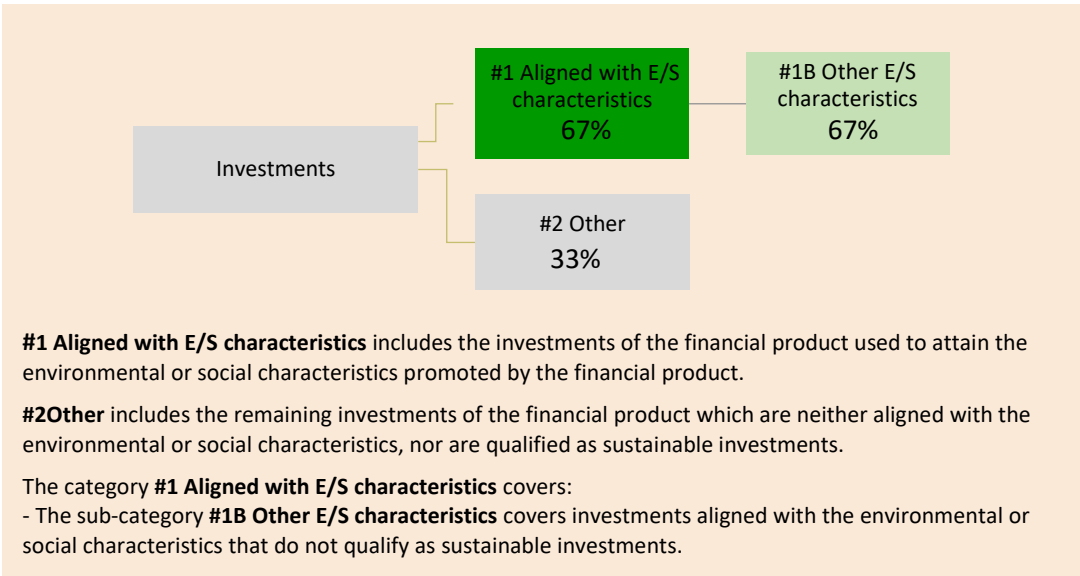

What is the asset allocation planned for this financial product?

The Manager will invest a minimum 67% of the portfolio in securities that promote the environmental and/or social characteristics in the manner as described above. A minor portion of the portfolio, 33%, may be invested in other assets that are not aligned with environmental and/or social characteristics, for example, collective investment schemes, index futures, and cash.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The exclusionary criteria that the Fund follows also apply to single name derivatives which may be used in the investment process. Therefore, single name derivatives should be aligned with the environmental or social characteristics promoted by the Fund.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The investment strategy, as set out in the section above "What investment strategy does this financial product follow?", describes how the Fund promotes ESG characteristics through, amongst other things, consideration of a wide range of environmental characteristics, including the Climate Objectives.

In order for an investment to qualify as environmentally sustainable as at the date hereof, it must meet a number of different criteria, including that it contributes substantially to a Climate Objective, as measured according to the technical screening criteria set out in the Taxonomy Regulation, and that it must not significantly harm any of the environmental objectives set out in the Taxonomy Regulation.

The Fund seeks to promote environmental characteristics, however does not make any assessment of whether its investments are Taxonomy-aligned; as such, the Fund will invest 0% of its Net Asset Value in Taxonomy-aligned investments.

The “do no significant harm” principle referred to above applies only to those investments underlying the Fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of the Fund do not take into account the EU criteria for environmentally sustainable economic activities.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

Yes

In fossil gas

In nuclear energy

No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What is the minimum share of investments in transitional and enabling activities?**

N/A

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A

What is the minimum share of socially sustainable investments?

N/A

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The Fund may hold other assets for the purpose of efficient portfolio management or asset allocation, such as, collective investment schemes, index futures, and cash. These other investments are not subject to the Fund's environmental or social criteria.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

N/A

● *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

N/A

● *How does the designated index differ from a relevant broad market index?*

N/A

● *Where can the methodology used for the calculation of the designated index be found?*

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
